

## **BRYAN MILES: STAGE SHOW TECHNICAL REQUIREMENTS**

### **1. STAGE:**

- The minimum performance area is 3 meters wide by 3 meters deep on a raised stage/platform. In order to ensure maximum enjoyment, please ensure that all guests have easy sight of the performance area.
- Stage area must be clear of obstructions\*. The surface must be smooth, clean and level.
- Stairs where necessary must be provided with easy and direct access from the stage into the audience.

### **2. SOUND/VIDEO SYSTEM:**

- The sound system is a very important element in the show. It must be a good quality system in perfect working condition, suitable for both speaking and music as appropriate for the venue, including the following:
- Minimum of two main speakers (placed at each side of the stage).
- 2 x handheld cordless mics with stands.
- One wireless headset mic for Bryan Miles which will need to be connected to the system.
- USB/MP3 input.
- HD Video Projector with screen on stage, linked to a laptop/pc provided by the venue/technical team.
- Qualified sound operator.

### **3. LIGHTING:**

- Lighting as necessary for the venue so as to ensure the performance area is well lit and visible. If theatrical lighting is available – a general 4-colour wash is preferred.

### **4. PROPS:**

- 1 x additional microphone stand.
- 3 x chairs.
- 1 x small table.

### **5. ACCESS:**

- A minimum of 1.5 hours for setup and sound checks *prior* to the audience arrival.

### **6. BACKSTAGE:**

- A backstage area – out of sight of the audience – located adjacent to the performance area shall be provided.

### **7. HOSPITALITY:**

- x 2 Bottled Still Water.
- Early check-in would be appreciated.

\*Strictly no meal service during the show please to avoid disruptions.
